[ID_1] Character Switch Failure After Cutscene in Mission I Fought the Law

Description • Unsaved changes

[Gameplay] During mission replay of “I Fought the Law”, the character switch system fails after a cutscene. Instead of switching control to Michael, the player remains as Franklin. This results in incorrect character placement and breaks scripted mission progression.
Franklin appears in locations intended for Michael, including being incorrectly positioned on a police bike. Subsequent gameplay segments also show Franklin spawning in unintended or invalid positions Eg: under a bridge or overlapping with vehicles.

For additional information please check the attachment.

Pre-Conditions:
Mission “I Fought the Law” is unlocked, Mission replay is available from the replay menu

Steps to Reproduce:

1. Launch Story Mode in GTA V E&E
2. Replay the mission “I Fought the Law”
3. Progress normally until the cutscene involving character switching
4. Observe the transition after the cutscene
5. Continue to the section where the player must choose one of three cars

Expected Result:
Control should switch to Michael after the cutscene,
Each character should spawn in their correct scripted positions,
Mission progression should follow intended sequence

Actual Result:
Character does not switch to Michael,
Player remains as Franklin,
Franklin appears in incorrect positions

Technical Reproducibility:
5/5

Severity:
High

Environment:
Platform: PC
Title Update: 1.72
Build Number: 1.0.1013.33
