Add epic / RG-5

[ID_7] Health regeneration effect persists in Story Mode after using favorite motorcycle in GTA Online

Description

A health regeneration effect triggered while using a favorite motorcycle in GTA Online carries over into Grand Theft Auto V Story Mode,
After transitioning to Story Mode, the player continues to regenerate health automatically up to 100%, even when not using any vehicle, This behavior persists across all playable characters and continues until the game is restarted or a different save file is loaded,
This results in unintended gameplay behavior and breaks Story Mode health mechanics

For additional information please check the attachment.

Pre-Conditions:
Player has access to GTA Online E&E,
Player health is below 100% before starting the test,
Player owns a favorite motorcycle (Most used motorcycle),
Player is able to switch between Online and Story Mode

Steps to Reproduce:

Development

Add epic / RG-5

Steps to Reproduce:

1. Launch GTA Online
2. Call in the favorite motorcycle
3. Mount the motorcycle
4. Observe that health regenerates while seated
5. Remain on the same motorcycle
6. Switch to Story Mode
7. Reduce player health (fall damage, NPC attacks, etc.)
8. Observe health behavior

Expected Result:
Health regeneration should follow Story Mode rules,
No Online session effects should persist after switching modes

Actual Result:
Story Mode characters health regenerates automatically to full,
Regeneration persists even without being on a vehicle,
Effect applies to all Story Mode characters,
Effect continues until game restart or loading a different save

Technical Reproducibility:
5/5
